

# 09-3808

## 8-FT (2.4M) RANGE POLE

The 3808 is a high-visibility range pole that ensures accuracy, efficiency, and reliability in the field. Its red and white stripe colors provide exceptional visibility over long distances, making it easy to establish clear lines of sight and mark critical control points with confidence.

Durable, lightweight aluminum construction pole allows crews to move quickly from point to point, while 5/8-11 thread mounting provides compatibility with prisms, GNSS receivers, and other accessories to enhance measurement precision across a wide range of applications.

- Lightweight aluminum pole with steel point
- Two 4-ft sections with alternate white & red striping
- 1-1/4-in (32mm) diameter poles with 5/8-11 male and female thread metal inserts
- Includes carrying case and rubber boot
